

Rosemary McGeehin joined the WGAP staff in 2022. She has been a member of Penn Oaks Golf Club for the past five seasons, and previously was a member of Concord Country Club where she was a board member & chairperson of the Ladies Group. Over the years she has been an active member of WGAP and has enjoyed participating in team matches, open days, golf trips and tournaments. She recently retired from elementary teaching after 38 years in education where she held many positions including classroom teacher, math resource teacher & instructional coach. During the latter part of my teaching career, she also had the wonderful opportunity to puppy raise golden retriever pups who were eventually placed in homes with a child with special needs. Last summer she was able to bring a sweet pup named Archie to a few WGAP tournaments where he became an instant celebrity! Perhaps there will be some new pups ready to greet our WGAP members at future tournaments & events. In addition to puppy raising and playing golf, she also enjoys traveling, gardening, cooking/baking, and spending quality time with family and friends.
